WEB DEVELOPMENT**Objective**

Apply my diverse experience in graphic design, Web publishing, programming, information design, editing, and writing to develop Web sites that are engaging, accessible, and easy to maintain.

Method

Develop Web sites employing content-management systems and data-driven Web publishing tools, so that authors can publish their content with minimal effort and training, while maintaining their organization's design standards.

Design & development tools

BBEdit and Adobe Web design suite

Standards and languages used

HTML/XHTML, CSS, SSI, PHP, MYSQL, JavaScript, and Apache server

SELECTED WEB SITES**Web interface design**

www.applesales.com
www.bluecollarsoftware.com
www.joltforum.com
www.karaoke.com
teambuilder.cicada.com
